Students will be broken up into groups and they will be required to come up with business/entrepreneurship ideas that will utilize technological skills they have learned throughout their time at MTCHS. Teams will come up with a business name, a product/solution/service and create a website/app/mockup to present to real business leaders in our community.

Students will learn to work together as a team, as well as practice in public speaking, interviewing, research and development.

Students attendance is an absolute must. Students who fail to meet the attendance requirements will be forced to complete a separate project.
