Online

Office Hours: 7:15am – 7:45am & 2:15pm – 3:00pm

### Course Overview

This course is intended to teach 3D computer aided design using the SolidWorks program. This is an online course, students can choose to take for high school credit.

### Outline – Topics by Quarter

#### **Quarter 3**

- Solidworks Tutorials

#### **Quarter 4**

- Solidworks Projects

### Grading

Grading will be on a points based system consisting of Tutorial and Project Assignments.

### Class Expectations

- All MTCHS Handbook policies will be followed
- Students are responsible for checking due dates in PowerSchool

### Certification

Students who complete all the coursework have the opportunity to test for a CSWA Certification. This is an industry standard entry level certification. Even though course work is completed, it is suggested that students do extra work to be prepared for the test. Students must show their skills by being able to complete and pass a practice test. Fast Forward money can be used to pay for certification.

### Late Work, Make-Up, and Redo Policy

#### **Late Work**

Students may receive no more than 70% for any late assignment. Any missing or late assignment may be submitted up to two (2) school business days after the assignment is marked missing in PowerSchool. Exceptions to this policy may be requested by the student in writing or email. The instructor will make the final determination on extension requests and will inform the student of the decision in writing or email.

#### **Make-Up Work**

Students may be allowed up to two days per unexpected absence to complete make-up work. Unexpected absences are those due to sudden illness, injuries or death in a family. Assignments or tests, which were assigned prior to the date of the absence, are due upon return.

#### **Redos**

If a student receives below a 70% on an assignment, a student may redo that assignment for a grade up to 70%. Individual teachers will determine due dates on make-up/redo assignments and which assignments can be made up. Any incomplete work may not be redone for credit.
